Discovering the Wadden Sea

64 pages, fully coloured,
22 x 28 cm, cardboard
€ 16.00

Rights sold to The Netherlands

With a seemingly endless horizon, the rhythmic roar of breaking waves, fresh sea breezes and tangy salt air, it's no wonder that the Wadden Sea -- part of the North Sea -- is a UNESCO World Heritage Centre. On shore and under water, on the tidal wash, on the dunes and in the air, there is a teeming diversity of life everywhere.

With vivid and lifelike illustrations this nature book introduces readers to the wide variety of Wadden Sea lifeforms and their respective habitats: the tiny North Sea shrimp, the swift Arctic tern, the nimble harbor seal, and countless others.

Many of these creatures can be spotted during a shore hike or while wading in the Wadden. The book tells where and how to look for them.

Ilka Sokolowski

was born in 1965 in Stadthagen. After receiving her Master's degree in German, English, and philosophy in Hannover, she worked for many years as an editor for the magazine "Spielen und Lernen" and as a contributor to the "Treff-Jugendbücher," a club devoted to sharing information about young adult books. Since 1998 she has worked as a freelance author with a focus on children's non-fiction.

Janine Czichy

comes from Jena. She studied visual communication at the Bauhaus University Weimar and is currently doing her master's degree in design, part of which is illustration, at HAW Hamburg. *Tierisch tödlich*, her first book, is the result of her bachelor's thesis at HAW Hamburg.
