Going to bed can be so much fun- there's so much to experience along the way! One small bat flies with you up the stairs, two brightly colored fish lead you to your room, ten long-armed octopuses tuck you in, and eleven sleepy little beavers cuddle with you...

Daniela Kulot's fanciful counting and bedtime book invites reading aloud and rhyming together and teaches easy counting from 1 to 12.

A reference column on the left side of the page explains the numbers with digits, words, and pictures. Here even very small children can develop a sense for quantities. Besides, who says that you have to count sheep to fall asleep?
