Dormouse – Animals in the Snow**

64 pages, fully coloured,
24.5 x 33 cm, hardcover
€ 16.95

**Rights sold to Czech Republic,
China, Belgium/the Netherlands**

The edge of the forest lies ahead, covered in deep snow.

Nature has come to rest—only the tracks in the snow are evidence of the many forest dwellers who face special challenges during the cold season. Where do hamsters, badgers, and snakes take refuge? And what do fish and birds do in winter? How do lizards, snails, and bees protect themselves against ice and snow? Thomas Müller's masterful, atmospheric illustrations of animals in snow-white backgrounds put us in a special wintry mood.

They teach us which strategies the animals use to adjust to the changed conditions of life and show us what hibernation, winter coats, and winter reserves are all about. The appendix includes useful suggestions about how people can help animals to survive the winter.
