When Tina's gotta go, no problem: Mommy takes her to the potty and then to her bath. But how does it work for animals? Where do fleas go when they've gotta pee? And cats? And dogs, and cows and little fish? Everyone does it in their own way – even if once in a while they do it in their pants!

An important topic for young children, presented with humor and with brightly colored, sometimes surprising, illustrations by Daniela Kulot.
